- Use cooking spray instead of oil
- Choose leaner proteins (chicken breast, white fish, shrimp)

Tips for Success

Hydration: Drink 10-12 glasses of water daily, especially if training. Proper hydration supports performance and recovery.

Meal Prep: Dedicate 2 hours on Sunday to batch cook. Prepare 2-3 proteins, 2 carb sources, and pre-cut vegetables. Mix and match throughout the week.

Flexibility: These meals are templates. Swap similar foods freely - turkey for chicken, quinoa for rice, broccoli for asparagus.

Timing: Eat every 3-4 hours to maintain stable energy and support muscle recovery if you're training regularly.

Quality Matters: Prioritize whole, minimally processed foods 80% of the time. Save 20% for foods you love that keep you consistent.
